A little guide for grown-ups

MY CHRISTMAS WISHES • CHRISTMAS 2026

Choose the pages your child enjoys.
There's no need to complete the whole set.

Write, draw, or ask a grown-up to help. Short answers count, and you can write down your child's words just as they say them.

Room for little writers

Pages 1–5 use a red top rule, dotted middle guide and green baseline. Each group is one writing row, with room below for letter tails. Choose the wish-list prompts your child enjoys. No single ruling system fits every child or curriculum.

Print a little Christmas magic

Choose the PDF that matches your paper: US Letter or A4.
Select only the pages you want. Print one-sided at Actual Size or 100%, with one page per sheet. No borderless setting is needed.
Plain white paper works well; light ivory paper adds warmth.
The white background saves ink. Color is lovely; grayscale works too.
